3 Bottles @ \$15.00 each - **Save: \$44.85**

6 Bottles @ \$13.50 each - **Save: \$98.70**

**Suggested Use:** *Take one capsule daily for immune support and protection. Can be taken with or without a meal.*

EpiCor is a dried yeast complex that is called an immune modulator. It can crank up the immune system to stave off flus and colds, a net gain in resistance or it can relax the immune system in the case of undue allergic reaction such as Teresa was experiencing.

I myself found that upon using EpiCor had the pleasant discovery that I was no longer allergic to cats. I had been allergic to cats my whole life! So there is something amazing about this product. Each bottle contains 30 capsules and all you need is one per day.

### If you want to:

- Protect against viruses, germs, pathogens – Tests show Epicor provides up to 60% greater protection!
- Boost the innate immune system and the activity of Natural Killer (NK) cells – Epicor provides Synchronous response to invading pathogens. --Epicor helps NK cells operate more efficiently and effectively!
- Have Superior immune response – Great if you deal with the public in your job or free time activities – Ideal for teachers, customer service reps, librarians and anyone whose job or interests have you in contact with the public. – Perfect if you are subject to more down time than others!
- Boost Your Body with High Antioxidants that work to overcome free radicals – Look and feel younger! – Feel good all-year round
- Just like the production staff where this original

discovery was made. – Turn your “sick days” into “personal fun days”.

EpiCor® is an all-natural, dietary supplement ingredient that helps to optimize immune system function by balancing the body's reaction to pathogens and allergens as well as providing anti-inflammatory benefits.
